A replay of the conference call will be available for 90 days from the call and may be accessed in the Investors & News/[Events and Presentations](#) section on the F-star Therapeutics website.

### **About F-star Therapeutics, Inc.**

F-star Therapeutics, Inc. (collectively with its subsidiaries, "F-star" or the "Company") is a clinical-stage biopharmaceutical company dedicated to developing next generation immunotherapies to transform the lives of patients with cancer. F-star is pioneering the use of tetravalent (2+2) bispecific antibodies to create a paradigm shift in cancer therapy. The Company has four second-generation immuno-oncology therapeutics in the clinic, each directed against some of the most promising IO targets in drug development, including LAG-3 and CD137. F-star's proprietary antibody discovery platform is protected by an extensive intellectual property estate. F-star has over 500 granted patents and pending patent applications relating to its platform technology and product pipeline. The Company has attracted multiple partnerships with biopharma targeting the significant unmet needs across several disease areas, including oncology, immunology, and CNS.
