Date: January 10, 2022

Time: 8:00 am EST

A replay will be available on the [F-star website](#) for 90 days following the conference.

B. Riley Securities' Oncology Conference (January 27-28, 2022)

Format: Fireside chat and one-on-one meetings

Date: January 27, 2022

Time: 8:00 am EST

About F-star Therapeutics, Inc.

F-star Therapeutics, Inc. is a clinical-stage biopharmaceutical company dedicated to developing next generation immunotherapies to transform the lives of patients with cancer. F-star is pioneering the use of tetravalent (2+2) bispecific antibodies to create a paradigm shift in cancer therapy. The Company has four second-generation immuno-oncology therapeutics in the clinic, each directed against some of the most promising IO targets in drug development, including LAG-3 and CD137. F-star's proprietary antibody discovery platform is protected by an extensive intellectual property estate. F-star has over 500 granted patents and pending patent applications relating to its platform technology and product pipeline. The Company has attracted multiple partnerships with biopharma targeting significant unmet needs across several disease areas, including oncology, immunology, and CNS.
