This press release also includes forward-looking statements related to F-star and the acquisition of F-star by invoX and Sino Biopharm that are subject to risks, uncertainties and other factors. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including all statements regarding the intent, belief or current expectation of F-star and members of its senior management team and can typically be identified by words such as "believe," "expect," "estimate," "predict," "target," "potential," "likely," "continue," "ongoing," "could," "should," "intend," "may," "might," "plan," "seek," "anticipate," "project" and similar expressions, as well as variations or negatives of these words. Forward-looking statements include, without limitation, statements regarding the business combination, similar transactions, prospective performance, future plans, events, expectations, performance, objectives and opportunities and the outlook for F-star's business; the commercial success of F-star's products; the anticipated timing of clinical data; the possibility of unfavorable results from clinical trials; filings and approvals relating to the transaction; the expected timing of the completion of the transaction; the ability to complete the transaction considering the various closing conditions; and the accuracy of any assumptions underlying any of the foregoing. Such forward-looking statements are based on our expectations and involve risks and uncertainties; consequently, actual results may differ materially from those expressed or implied in the statements due to a number of factors, including, but not limited to, uncertainties as to the timing of the tender offer and merger; uncertainties as to how many of F-star's stockholders will tender their stock in the offer; the possibility that competing offers will be made; the possibility that various closing conditions for the transaction may not be satisfied or waived, including that a governmental entity may prohibit, delay, or refuse to grant approval for the consummation of the transaction (or only grant approval subject to adverse conditions or limitations); the difficulty of predicting the timing or outcome of regulatory approvals or actions, if any; the possibility that the transaction does not close; negative effects of this announcement or the consummation of the proposed acquisition on the market price of Sino Biopharm's or F-star's common stock and/or Sino Biopharm's or F-star's operating results; significant transaction costs; unknown liabilities; the risk of litigation and/or regulatory actions related to the proposed acquisition; the cash balances of F-star; that F-star may experience delays in completing, or ultimately be unable to complete, the development and commercialization of its product candidates; that F-star's clinical trials may fail to adequately demonstrate the safety and efficacy of its product candidates; that preclinical drug development is uncertain, and some of F-star's product candidates may never advance to clinical trials; that results of preclinical studies and early stage clinical trials may not be predictive of the results of later stage clinical trials; that F-star relies on patents and other intellectual property rights to protect its product candidates, and the enforcement, defense and maintenance of such rights may be challenging and costly; and that F-star faces significant competition in its drug discovery and development efforts.

New factors emerge from time to time and it is not possible for us to predict all such factors, nor can we assess the impact of each such factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. These risks are more fully discussed in F-star's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, as well as the Schedule TO and related tender offer documents, as amended, filed by invoX and Sino Biopharm, and the Schedule 14D-9 filed by F-star, and other documents filed from time to time with the SEC.
